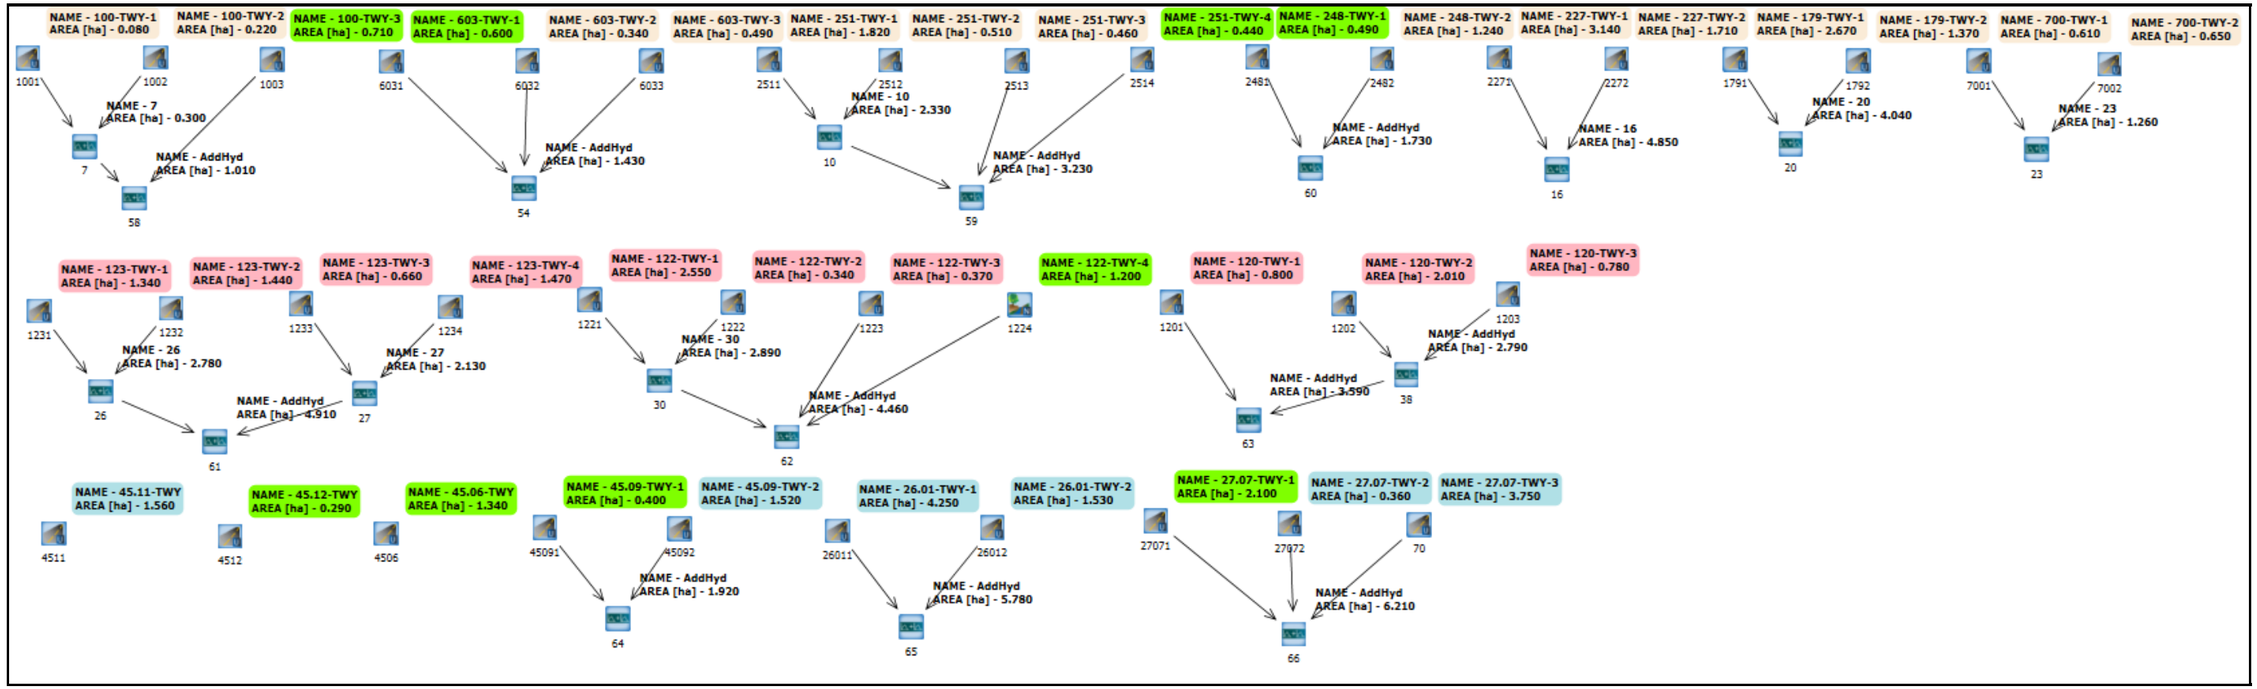
Etobicoke & Mimico Watershed

407 TWY Sub-areas – Proposed Condition without SWM

602896 – 407 TWY: Proposed Uncontrolled Condition - VO Model Schematic



Notes:

1. Labelled drainage areas with yellow are from Etobicoke Creek Watershed, pink areas are from Mimico Creek Watershed, and blue areas are from Humber River Watershed.
2. Under proposed condition, labelled areas with green are kept the same as existing condition where proposed runningway is underground.

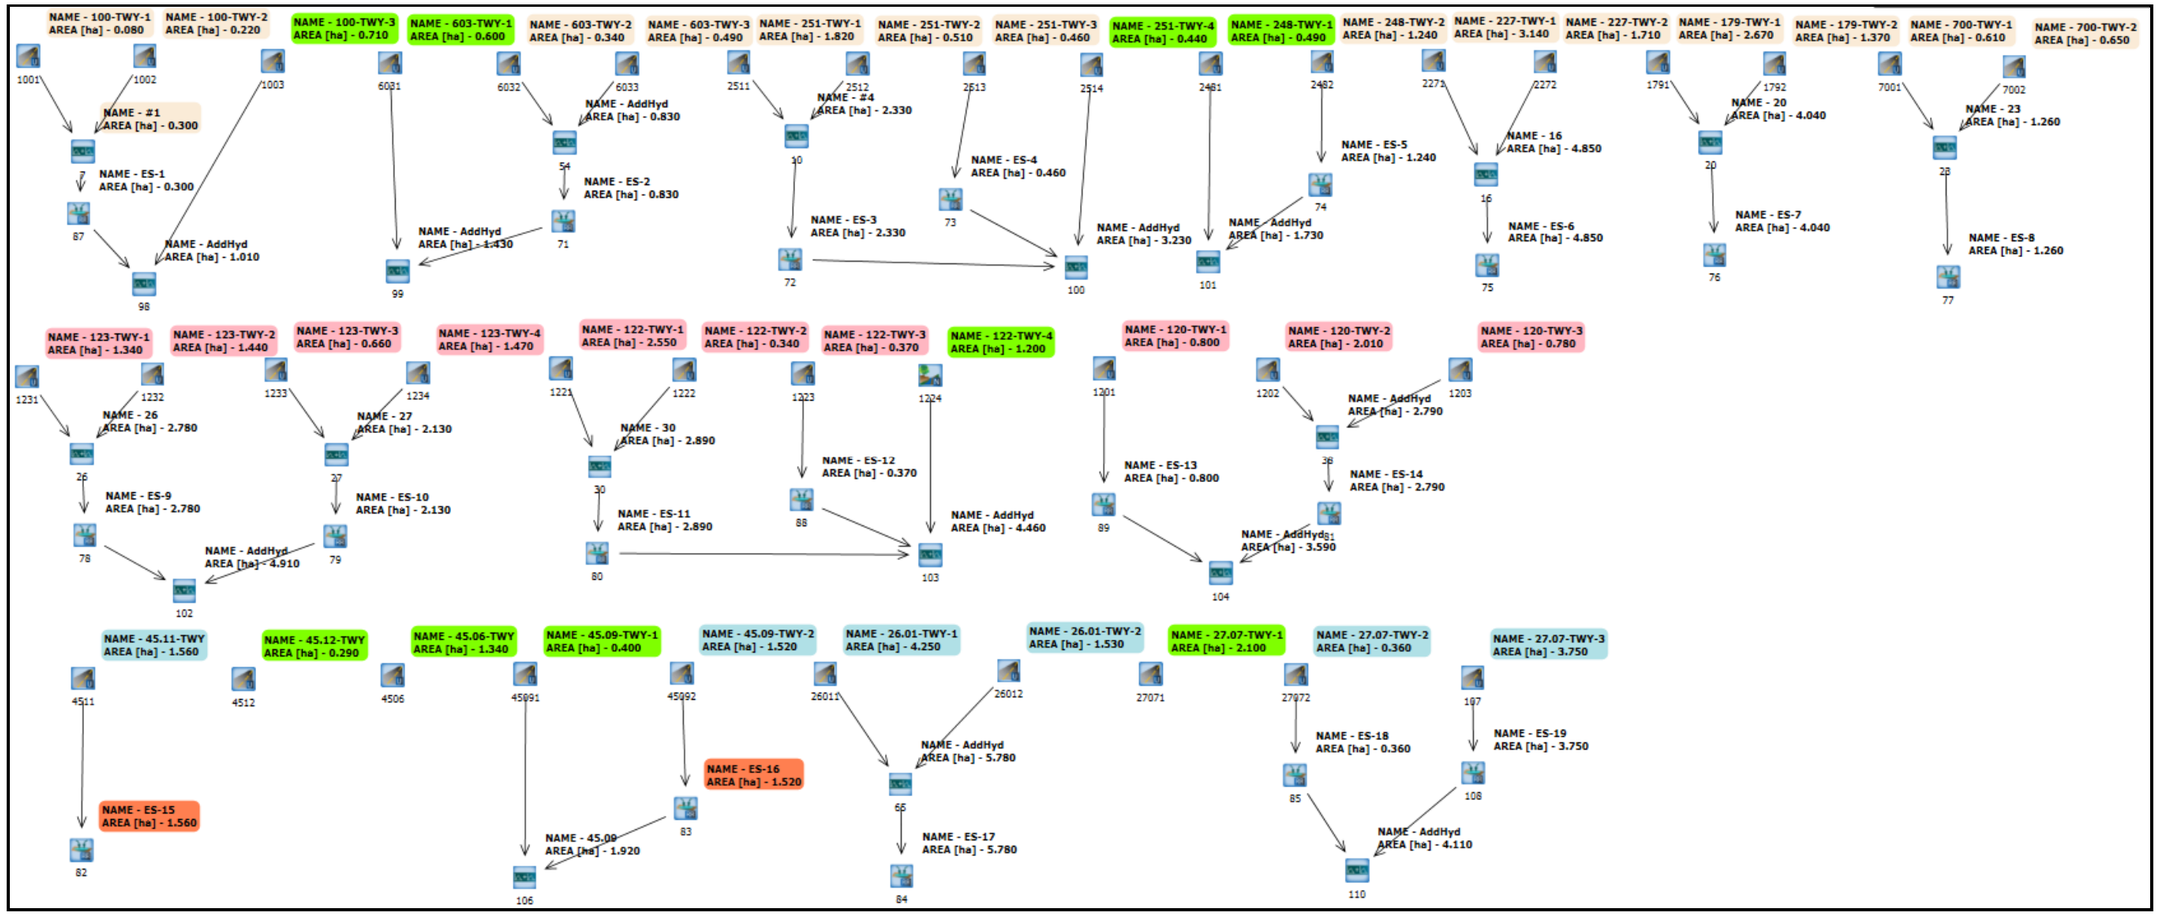
Etobicoke & Mimico Watershed

407 TWY Sub-areas – Proposed Condition with SWM

602896 – 407 TWY: Proposed Controlled Condition with Swales - VO Model Schematic



Notes:

1. Labelled drainage areas with yellow are from Etobicoke Creek Watershed, pink areas are from Mimico Creek Watershed, and blue areas are from Humber River Watershed.
2. Under proposed condition, labelled areas with green are kept the same as existing condition where proposed runningway is underground.
3. Orange labels represent the areas under Humber River watershed that do not require quantity control
